

## 2009 Topos International Landscape Award Win :: Iceland presentation in Alvar Aalto designed Nordic House

The premiere international landscape architecture and urbanism journal, Topos from Germany, has awarded its biennial 2009 Landscape Award to mcgregor+partners from Sydney. The award recognises the design and environmental work of the firm whilst acknowledging potential for further important contributions to the international landscape architecture scene.

The award has been conveyed four times to European firms and mcgregor+partners are the first international firm to win the prize. Topos selected the Sydney based Australian office as a proponent of a new wave of environmentally focused landscape architecture framed within a modernist design approach.

The past winners of the award are Stig Andersson, Denmark; Karres en Brands, The Netherlands; and GROSS MAX, Scotland.

The work of mcgregor+partners will be extensively documented in TOPOS 67, due to be released on 26 June 2009. The award will be presented to directors Adrian McGregor and Philip Coxall as guests of TOPOS magazine in Reykjavik, Iceland on 26th June 2009 in the Alvar Aalto designed Nordic House. A two day landscape architecture conference on cities and the environment is set to coincide with the event.
